

PROXI[®] SPRAY AND WALK AWAY

Sustainable Solutions for Health,
Productivity and the Environment.

PROXI Spray and Walk Away

Stain Remover/Deodorizer for Carpet & Upholstery

Cleans and Dries Quickly

- No Rubbing
- No Scrubbing
- No Blotting
- No Rinsing

Oxidizes Stain Molecule

- Eliminates Odors
- Non-bleaching
- No VOCs
- No Residue
- Harmless to User

Patent-Protected Technology

PROXI is an aqueous, one part cleaning composition consisting of Hydrogen Peroxide (Oxygen Bleach), a stabilized oxidizing agent and compatible formulation ingredients. Hydrogen Peroxide breaks down the polyphenolic compounds, the body fluids, the grease and grime, and coffee. The result is a gradual fading of the stain. PROXI dissolves organic matter eliminating related odors.

While the stain is removed from the carpet & upholstery, **PROXI will not bleach the color out!** If there is a crocking concern, it must be tested for colorfastness first.

PROXI destroys odor-causing matter such as vomit, urine, hair oil, sour milk and other organic material, without the use of perfumes or fragrance. It does not mask odors it destroys the organic matter causing them. Most notable after using PROXI is the clean smell because of the oxidation of odor causing organic materials.

PROXI works without rubbing, scrubbing, blotting or rinsing. **Just spray and walk away.** This ensures that fibers will not be damaged by aggressive mechanical

abrasion. PROXI will clean delicate fabrics safely without “roughing up” the fabric surface.

As the product dries, the relative concentration of Hydrogen Peroxide will increase proportionately. The Hydrogen Peroxide becomes stronger and stronger and will oxidize and loosen the stain.

Professional cleaners will be especially pleased to discover that PROXI is low foaming. It will successfully dislodge soil and dirt and suspend this solution above the substrate until extraction takes place. The **No Rinse No Extraction** feature is the most important time saver of all.

Effective to Clean and Deodorize

- **Pre-spray** – Spot Removal
- **Bonnet Cleaning** – Extraction
- **Post-spray** – Deodorizer
- **Laundry** – Organic Stains

Nature's Scrub Brush™

PROXI is harmless to the user, the ingredients used contain no Volatile Organic Compounds (VOC's) and leaves behind no harmful residual chemical footprint because it breaks down into water and oxygen after it completes its work. It is a non-regulated product and requires no special handling.

The ingredients in Proxi are so natural to the environment that we refer to it as "Nature's Scrub Brush".

Truly Sustainable

Our cleaning programs are designed to protect and enhance the health of your cleaning staff and building occupants and the environment. Our goal is to build sustainable programs for facilities maintenance by focusing on financial benefits, environmental stewardship and improvements to workplace health, safety and productivity.

Sustainable Solutions have a triple bottom line payoff.

People

- Training
- Automation
- Reduced health risks
- Testing

Planet

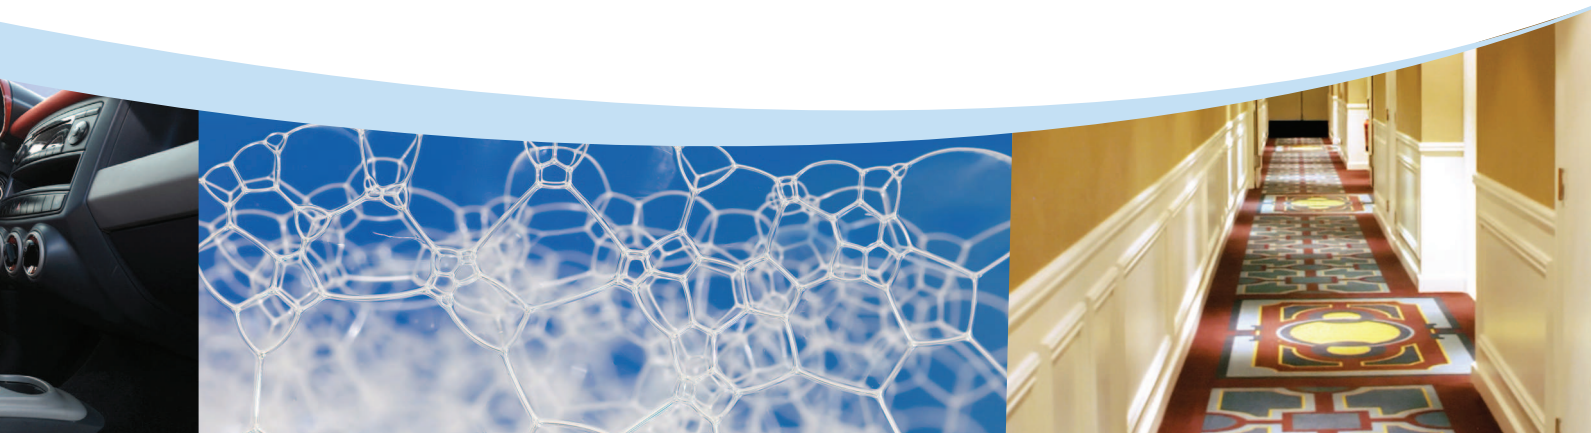

- Lower VOCs
- Water savings
- More responsible chemicals

Profit

- Portion control
- Reduced Absenteeism
- Water savings
- Productivity improvements

Product Usage and Instruction Guide

Proxi Stain Remover & Deodorizer for Carpet and Upholstery

Application Effective On

Carpets

Spot Spraying

Using trigger sprayer, dampen but do not soak the stained area with PROXI. Make sure to feather out the spray if possible. Gently work the product into the carpet with a brush to optimize the the PROXI contact time with the carpet fibers. Do not extract or blot, allow to fully dry. The stain will disappear as the PROXI dries.

Bonnet Cleaning

Spray PROXI lightly onto carpet and work area with a bonnet cleaner as you normally would with a detergent cleaner. No extraction is necessary with PROXI. PROXI will continue to clean and brighten as it dries.

Extraction

Add PROXI to a carpet extraction machine at a ratio of 10:1 instead of detergent. The product is low foaming and will leave no soapy residue behind. Use immediately after mixing.

Furniture and Drapery

Using a trigger sprayer, lightly dampen any stained or discolored fabric with PROXI. Do not extract but allow to dry. Test for colorfastness prior to applying PROXI.

Mattresses

Using a trigger sprayer, lightly dampen a stained or foul smelling mattress with PROXI. Do not extract but allow the product to fully dry. PROXI will remove the stain and destroy the odor causing organic material in the mattress. For deep seated odors inject mattress with a syringe.

Laundry

PROXI is also effective as a non-chlorine bleach for removing stains.

Automotive Interiors

Spot spray with PROXI or use in an extraction machine to clean and brighten interior fabrics and carpets in cars, trucks, RVs, boats and trailers.

All organic stains such as: Blood, juices, pop, red wine, body oils, pet stains, vomit, coffee, tea, jams, sauces, dirt, general soil. Odor causing organic material such as feces, urine, decay, rot. PROXI may also be effective on non-organic stains.
