PROFESSIONAL INSECT CONTROL® FINE GRANULE INSECT BAIT

FINE GRANULE INSECT BAIT (10 oz.)

**FOR CONTROL OF ANTS, ROACHES' AND CRICKETS
FOR USE IN AND AROUND STRUCTURES AND RESIDENTIAL AREAS
RECOMMENDED FOR USE BY COMMERCIAL APPLICATORS**

ACTIVE INGREDIENT:

Hydramethylnon [Tetrahydro-5,5-dimethyl-2(1*H*)-pyrimidinone, (3-(4-(trifluoromethyl) phenyl)-1-(2-(4-(trifluoromethyl) phenyl) ethenyl)-2-propenylidene)hydrazone]1.0%
Other Ingredients:99.0%
TOTAL:100%

KEEP OUT OF REACH OF CHILDREN

CAUTION: SEE BELOW FOR ADDITIONAL PRECAUTIONARY STATEMENTS

MAXFORCE® fine granule insect bait is a ready-to-use product for use in and around buildings, on lawns, and other non-crop areas.* The use of this product on pasture and rangeland is unlawful. Do not graze or feed lawn or sod clippings to livestock. The patented formula of MAXFORCE® fine granule insect bait contains a special blend of foods, combined with the delayed-action stomach poison, hydramethylnon. When properly used, this bait will control many of the following insects, including ants, cockroaches, crickets, before they can enter a structure. Do not apply other insecticides (such as aerosols, sprays, etc.) on top of or in close proximity to MAXFORCE® fine granule insect bait, as it will reduce the effectiveness. Expect to see fewer ants within a week.

MAXFORCE® fine granule insect bait controls roaches¹, crickets and a variety of ants including the following species: Acrobat, Argentine, Big Headed, Carpenter, Cornfield, Field, Fire², Ghost, Harvester, Odorous House, Pavement, Pharaoh, Thief. The delayed action of the active ingredient allows foraging ants to bring the bait back to the nest so that the entire colony, including the queen, is destroyed.

PRECAUTIONARY STATEMENTS

CAUTION: HAZARDS TO HUMANS

May be harmful if swallowed. Avoid contact with skin or eyes. Applicator should wear gloves and wash hands thoroughly after handling.

FIRST AID

If swallowed, drink one or two glasses of water and induce vomiting by touching back of throat with finger. Do not induce vomiting or give anything by mouth to an unconscious person. Get medical attention.

For more information, call: 1-800-426-6228.

HAZARDS TO ANIMALS

Store in a secure place. Pets may be attracted to this product. Keep pets away from treated areas for at least 24 hours after application.

ENVIRONMENTAL HAZARDS

This product is toxic to fish. Do not apply directly to water. Do not contaminate water by cleaning of equipment or disposal of equipment washwaters.

STORAGE AND DISPOSAL

Store in a cool, dry, secure place. Keep container closed when not in use. Avoid contamination from other insecticides. Do not contaminate water, food or feed by storage or disposal. Do not reuse empty container for any use other than this product. Wrap empty container and place in trash can.

* Do not use on other non-crop areas in California.

¹ German, American, Oriental, and Smokybrown roaches

² Native and Imported

³ Pavement, Field, Cornfield, and Harvester ants

U.S. Patent Nos. 4,353,907; 4,657,912 and other patents pending.

DIRECTIONS FOR USE

It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

FOR OUTDOOR USE

1. **AROUND STRUCTURES:** Sprinkle MAXFORCE® fine granule insect bait evenly in a 1-2 foot wide band adjacent to the structure at a rate of 0.5 oz (one tablespoon) of bait per 25 linear feet. NOTE: Around structures the total application should not exceed 4-8 oz per 200-400 linear feet (or 0.5 oz per 25 linear feet). A typical application would be 4-8 oz adjacent to an average sized home of 200-400 linear feet. Also, be sure to treat areas such as porches, patios, driveways, sidewalks, flower gardens, and around trees, wood piles and garbage receptacles. DO NOT USE ON EDIBLE FOOD CROPS OR ON AREAS INTENDED FOR EDIBLE FOOD CROP PRODUCTION. For ants, treat visible trails as well as cracks or crevices where ants may enter structure.
2. **BROADCAST APPLICATION:** Sprinkle MAXFORCE® fine granule insect bait uniformly at a rate of 1 ounce per 1800 square feet.
3. **FIRE ANTS AND OTHER MOUND BUILDING ANTS³:** Sprinkle approximately two tablespoons (1 ounce) of bait around each mound. For best results, do not apply bait directly in or on the mound. Do not disturb the mound. Ants that are agitated may not feed on the bait.

FOR INDOOR USE:

NOTE: Avoid contamination of food, food contact surfaces and feedstuffs. Indoor applications are limited to areas that are inaccessible to children or pets, such as cracks, crevices and other inaccessible areas such as wall voids, unfinished attics and crawl spaces within residential and non-residential buildings or structures and within non-food / non-feed areas of industrial, institutional, and commercial buildings, as outlined below.

Apply up to 0.5 ounces (one tablespoon) of bait per crack, crevice or other inaccessible area where insects may hide or live. Apply product using suitable application equipment (such as the Centro Bait Master.) Wipe up any loose or excess granules. Apply evenly in unfinished attics and crawl spaces at a rate of 0.5 ounces per 100 square feet only if the space is secured or otherwise inaccessible to children and domestic animals.

Not for use in USDA meat and poultry plants.

**TOTAL NET WEIGHT
10 ounces (283.5 g.)**
